PROFESSIONAL SUMMARY

Undergraduate specializing in Computer Systems & Network Engineering with strong interest in cloud computing, networking, and infrastructure. Hands-on experience in building enterprise-level virtualized environments, network architectures, and software systems. Passionate about designing scalable, secure, and high-performance systems while continuously learning modern cloud and DevOps technologies.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

📅 2024 – 2028

BSc (Hons) Information Technology

Specializing in Computer Systems & Network Engineering

St. Anthony's College, Kandy

📅 2020 – 2023

G.C.E Advanced Level – Physical Sciences

SKILLS

TECHNICAL SKILLS

- Programming: Java, Python, R
- Web: HTML, CSS, JavaScript
- Systems & Tools: Linux, CLI, VirtualBox, Apache, Zimbra
- Networking: VLANs, DHCP, DNS, ACL, Active Directory (Samba), LDAP, Kerberos
- Concepts: Virtualization, System Administration, Cloud Computing Basics

SOFT SKILLS

- Teamwork
- Time Management
- Emotional Intelligence
- Problem Solving
- Adaptability

PROJECT EXPERIENCE

Enterprise Linux Infrastructure Deployment (DHCP, AD, Mail & Web Services)

Apr 2026

- Built a virtualized enterprise infrastructure using Linux servers
- Configured DHCP (Kea), Samba AD (DNS, LDAP, Kerberos), Apache, and Zimbra
- Implemented domain authentication and joined Linux clients
- Performed end-to-end testing and troubleshooting across services

Enterprise Wired & Wireless Network Design (Office Environment)

Apr 2026

- Designed a secure network supporting 120 endpoints using VLAN segmentation
- Implemented inter-VLAN routing, DHCP, ACL-based security, and wireless networks
- Built guest network isolation and basic firewall/VPN architecture

Heart Attack Prediction Bot (Machine Learning)

Jul 2025 - Oct 2025

- Developed ML model for risk prediction with preprocessing and evaluation
- Integrated into a chatbot interface

Web-Based Catering Management System

Jul 2025 - Oct 2025

- Developed web application for order and inventory management
 - Applied system design and frontend-backend integration
-

CERTIFICATIONS

- AWS Educate – Introduction to Cloud
 - Linux Unhatched
 - Introduction to Generative AI
-

CAREER OBJECTIVE

Seeking an internship in Cloud Engineering, DevOps or Network Engineering to apply technical skills in real-world environments and gain hands-on experience in cloud infrastructure, networking, and system design.
